

## C) Remarks

This amendment is believed to fully comply with 37 CFR 1.121. The non-compliance of applicant's response to the Official Action dated December 10, 2004 is regretted and the opportunity to file a correct response is greatly appreciated.

The claims are amended in a manner believed to overcome the informal matters identified in the objections to claims 16 – 19 and 24. Additionally, claim 23 is amended to maintain a consistent use of the term *decorating* and the title is changed to better identify the claimed subject matter. It is believed the application is now in condition for allowance and such action is earnestly solicited.

Respectfully submitted,

Clifford A. Poff
